

Margaret Meaker

General Manager (ex officio)

Margaret was appointed as General Manager of the STaR Association in 2006. Prior to this she held the position as Treasurer 2001-2001 and President 2002-2005.

With over 20 years experience working in the Community services sector, she has held management positions working for non-government organisations. This includes working for Residential Care Inc, an accommodation support service for adults with intellectual disabilities, managing the Community Access and Integration Programs. She has also worked for the Benevolent Society in Aged Care, establishing and managing Community Aged Care Packages on Sydney's Northern beaches, enabling people to remain living independently in their own homes for as long as possible.

Margaret's daughter, Lilian, now 11 years old was one of the first children to enrol in the STaR program in 2002. Her motivation remains very personal as she believes her daughter's ability to learn and participate socially was enhanced forever because she attended a STaR centre for 3 years.

Qualifications

Advanced Certificate in Social Welfare
